

Dear Parent/Carer

Cashless Catering

As you may be aware, The Lakes School operates a cashless catering system for students wishing to buy items in the dining hall.

This system offers the following benefits:

- Increased speed of service reducing queuing times
- Anonymity on Free School Meals
- Facility to pay On-Line
- No need to carry cash preventing loss or theft
- Automatic alerts to stop pupils purchasing allergy trigger items
- Students learn about important lifestyle control by monitoring their own accounts

The Department of Education legislation regarding the use of biometrics in schools states that we must have written permission from a parent/guardian to allow your child to use the biometric facility on the cashless catering system currently being used in the school.

The system used in school incorporates the latest technology and please note that fingerprints are not held on any part of the system. The technology provided for this method of identification meets with BECTA guidelines.

If you choose not to have your child registered on the biometric system a 4 digit PIN code will be allocated. Please note that PIN codes do not have the same level of security and it will be your child's responsibility to remember the code and keep it secure at all times.

Once we have received your consent, your child will be able registered biometrically on the cashless catering system on the first day of next term and will then be able to purchase food and drink in the school's dining room.

If you have any further question about our cashless catering system, please do not hesitate to contact the school office. Otherwise, could you please complete the form attached to this letter and return it.

Yours sincerely,

The Lakes School
