# The Lakes School

Teaching children to climb their own mountains

**The type of person you become is as important as what you achieve.**

We strongly believe that all students, whatever their ability, should be encouraged to fulfil their individual potential and their ambitions. We expect all of our students to aim high.

The Lakes School has a strong reputation for enabling students of all abilities to make excellent progress. Our Student Development Team work closely with students, teachers and parents to ensure that all children are well supported so that they can flourish in the classroom.

At The Lakes School, we keep every student safe and secure so that they can learn with confidence whilst fostering self discipline, independence and consideration for others.

‘Leaders have high expectations of pupils’ achievement and behaviour.’

**Ofsted 2019**

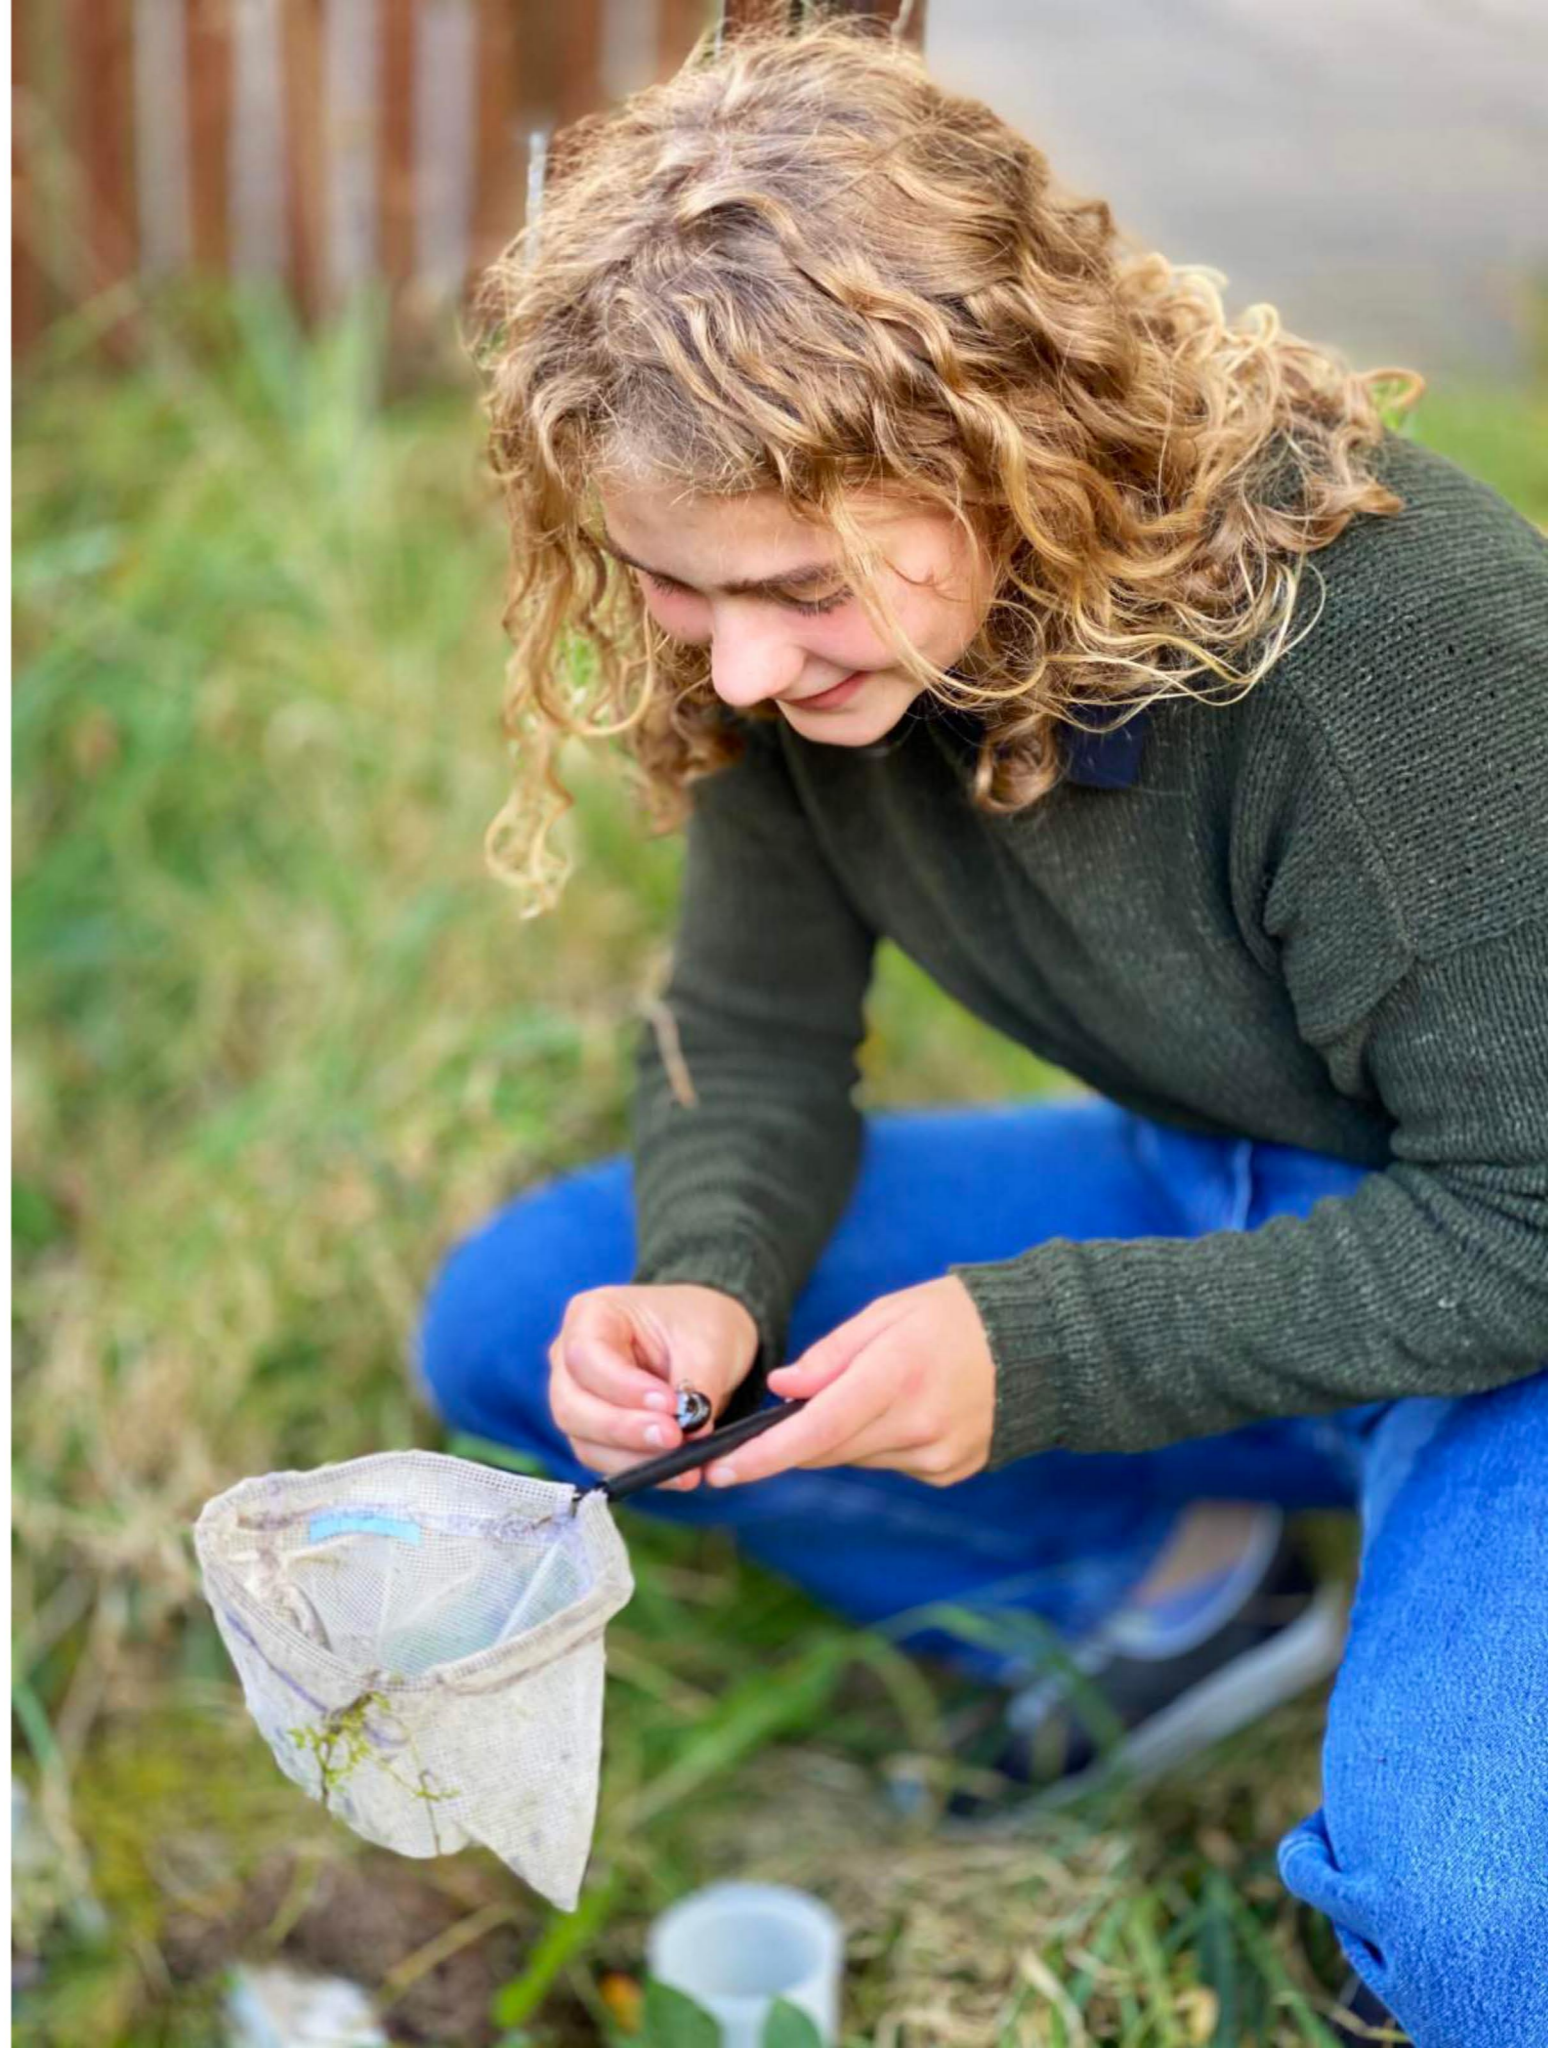

At the heart of the school is our inclusive curriculum that inspires, challenges and empowers young people. This vision for our curriculum shapes everything we do to ensure that all of our students go on to live a fulfilling and rewarding life.

We are a small school and our dedicated staff provide a curriculum that is rich with so many opportunities and experiences which respond to the needs and interests of our students.

Students at The Lakes School study a wide range of subjects and benefit from our personalised curriculum offer which helps to develop the skills, knowledge, qualities and abilities they need to reach the high standards we set for their achievement.

‘The curriculum reflects the ambition that teachers have for all pupils.’

**Ofsted 2019**

Our inclusive curriculum is designed to inspire challenge and empower young people so that they become ambitious creative proud knowledgeable skilled independent socially aware and make a positive contribution to their community

When people visit they tell us that they are overwhelmed by the calm and respectful atmosphere that pervades the school. In the classroom, we know that this environment helps students to reach their full potential.

We place a great deal of importance on high quality relationships between students, their peers and all adults working at our school and we believe that this contributes to the excellent attitudes of our students. These positive relationships reflect the size and friendliness of the school.

We know that students of all ages are very appreciative of their teachers' efforts in providing them with inspirational teaching and a wide range of extra curricular activities.

Our parents tell us regularly how much they appreciate being kept up to date and we know that this leads to a strong partnership between students, parents and The Lakes School.

'Leaders and teachers make The Lakes School a welcoming and happy place to be. Pupils feel safe.'
